ComStage Switzerland Titans 30 UCITS ETF

The ComStage Switzerland Titans 30 UCITS ETF is an exchange-traded investment fund (Exchange Traded Fund, "ETF") linked to the performance of the Dow Jones Switzerland Titans 30 Net TR Index. ComStage ETFs combine the advantages of a traditional investment fund and the tradability of a stock. The EU Fund Directive „UCITS" stipulates that all fund inventory are segregated assets ("Sondervermögen"). Should an investment company file for insolvency, ETF assets are not affected because they are held in an account separated from the asset manager's balance sheet. The Net Asset Value (NAV) of an ETF is calculated daily by the custodian bank independently. ComStage ETFs are traded continuously on several stock exchanges just like equities. Other than actively managed funds, ETFs do not charge entry and exit fees when traded via stock exchanges. Instead transaction costs apply as with standard equity trades. ETFs can also be traded over-the-counter (OTC) through market makers.

Index description

The DJ Switzerland Titans 30 Net TR Index represents the performance of the most liquid shares of 30 leading companies in Switzerland.The stocks are selected by free-float market capitalisation and average trading volume. The index is a free float market capitalisation weighted index, each shares weight is capped at 10%.

Please note: The index on which this ETF is based was changed in February 27 2015. This factsheet applies only to the new index:
Dow Jones Switzerland Titans 30 Net Total Return Index.

ComStage in portrait

Currently ComStage holds in more than 100 ETFs about 8.7 billion EUR in assets under management. ComStage is managed by Luxembourg-based "Lyxor Funds Solutions S.A." (formerly: Commerz Funds Solutions S.A.). The management company was founded in 2008. The fund range of ComStage covers all asset classes: equities, bonds, commodities, money market and strategy indices.

For a detailed description the benefits and the risks, please refer to the Key Investor Information Document (KIID) and the prospectus.
