iNdx Equities Switzerland (CHF)

Class P

as of 31 May 2026

Thomas Kühne
Fund Manager since 01.05.2015

Georg Peter
Co-Manager since 01.05.2026

Investment policy

The fund invests, in accordance with the principle of risk distribution, in a broadly diversified equity portfolio of companies domiciled in Switzerland. It tracks the development of the SPI Swiss Performance Index and offers investors the possibility of participating in the development of the Swiss equity market. The optimised sampling approach has been chosen as an indexing method. The fund's level of risk relative to the reference index is constantly monitored. The fund is suitable for qualified investors having a long-term investment horizon, who wish to benefit from the high earnings potential offered by Swiss equities, and who are ready to accept substantial temporary fluctuations in the value of their assets to do so.

Manager comment

The fund posted a positive return in May. Certain stocks, such as Richemont, ABB, UBS or Roche performed well. On the other hand, Alcon, Swiss Life and Swiss Re, among others, weighed on the fund. The defensive stocks have stabilized the portfolio during the Iran war. The number of stocks with negative YTD remains large. It is precisely in such phases that the fund's diversification pays off. There were no major capital events in the previous month. The current dividend payments and capital or nominal value adjustments were continuously invested.

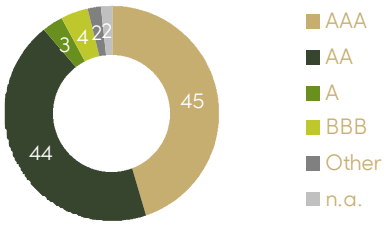
Sustainability reporting iNdx Equities Switzerland (CHF)

The fund has an MSCI ESG rating of:

AA

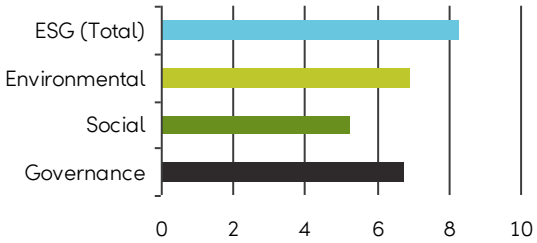
The **MSCI ESG Rating** measures the fund's resilience to long-term risks and opportunities arising from (E) environmental, (S) social and (G) governance criteria.

Distribution of ratings in the fund (in %)



MSCI's individual stock ratings are relative to the respective peer companies from the same sector. The ratings (AAA; AA) are only given to companies with leading or improving management of the most important ESG criteria. Ratings of A, BBB, BB are given to average companies and ratings below that to less advanced companies. The ratings assess the extent to which a company is exposed to ESG risks, how well it manages these risks through management and good corporate governance and how well it is prepared for the demand for environmentally or socially friendly products and services.

Characteristics by ESG criteria in fund (score)



The **MSCI ESG Quality Score** shows the respective performance in terms of the (E) environmental, (S) social and (G) governance criteria. A longer bar indicates greater progress in the respective criterion. Values (score) of 10 - 7.1 are given to leading companies in the fund portfolio, 7.1 - 2.9 to average companies and values below 2.9 to less advanced companies.

Our DNA

I want a fund that sees sustainability as more than just a trend.

We have decided for a methodically comprehensive approach to the sustainability process. We apply this equally to all asset classes. It is implemented in various products such as investment funds as well as asset management and advisory mandates.

Legal notice: The information concerning LLB investment funds is directed not at specific persons, but is instead provided generally for readers interested inter alia in LLB investment funds and who reside in a country in which the investment funds are licensed. All LLB investment funds are licensed for sale in the Principality of Liechtenstein and, on a time-delayed basis, in Switzerland. The information concerning LLB investment funds does not constitute an offer or an invitation to purchase in a country in which such an offer or invitation to purchase is unlawful or in which a person who makes such an offer or invitation to purchase is not in possession of the necessary licenses or permits. LLB investment funds are not currently registered under the United States Securities Act of 1933 (United Securities Act) and the Investment Act of 1940. For this reason, in particular within the USA, units of these investment funds may not be sold, offered or delivered to investors who are domiciled in or citizens of the USA. It is essentially the case that investments in investment funds should only be made following thorough study of the current, product-specific documents and after professional advice has been obtained. All documents, in particular the brochures as well as the annual and interim reports, may be obtained free of charge from the Liechtensteinischen Landesbank AG, Städtle 44, 9490 Vaduz, and from all distribution agents. This publication is a marketing communication in terms of the Markets in Financial Instruments Directive (MiFID II, 2014/65/EU).
