Exchange Traded Product	Swiss Security Number	ISIN	Ticker	Settlement Currency	Trading Currency on BX	Place of initial listing
21Shares Staking Basket Index ETP	121054889	CH1210548892	STAKE	USD	CHF	BX Swiss Exchange

### Update with regards to the underlying of Exchange Traded Products:

As of 10 September 2024, the Products have Polygon (MATIC) as their underlying or part of their underlying with the following weightings:

- 21Shares Staking Basket Index ETP (STAKE): 4.40%

In summer 2023, Polygon presented Polygon 2.0, a new ecosystem architecture that allows the whole suite of Polygon's solutions to be interoperable. To secure, coordinate and scale the whole network, Polygon has introduced the Polygon Ecosystem Token (POL) as successor to MATIC. On 25 October 2023, the MATIC to POL upgrade was initiated on the Ethereum mainnet where users can migrate their MATIC 1:1 for POL. Source: <https://polygon.technology/blog/polygon-2-0-milestone-pol-contracts-are-live-on-ethereum-mainnet>

In the second phase, Polygon Labs will have POL replace MATIC as native gas and staking token. On 4 September 2024, all MATIC held in the contracts of the Polygon Plasma Bridge and Staking will be **automatically converted** to POL. This will immediately increase the migration rate to 51+% and move critical functionalities to POL. As of September 19, 2024, 21Shares will upgrade its MATIC tokens to POL tokens. Please note that staking the POL in STAKE may commence at the earliest after September rebalance, in line with the index rules. Investors in this ETP do not need to take any action. Additionally, investors who do not wish to have their MATIC holdings migrated to POL would need to sell the ETP prior to the effective date of the change.
